

### Ambient Moon Natural Chai

*Made with Organic Black Tea*

This delicious special brew of dark dandelion honey, organic black tea, organic cane juice and spices provides everyone, in all walks of life, peace and contentment...in a cup!

The benefits of black tea are legendary. Black Tea contains abundant tannins and soothing anti-inflammatory effects on the digestive tract. The lower levels of caffeine in Black tea sharpens mental focus and concentration by promoting blood flow in the brain without over-stimulating the heart, and the trace element fluoride inhibits tooth decay.

### Ambient Moon Rooibos Chai

*Made with Organic and Fair Trade Certified Rooibos Tea*

One of the fastest growing products in the herbal beverage market is Rooibos. Rooibos is known as the mountain tea of South Africa and has been used there for centuries because of its great flavour, natural sweetness and health benefits. Rooibos is 100% caffeine free and is believed to improve memory, fight heart disease, promote restful sleep and even calm colicky infants. Ambient Moon Rooibos Chai is sweetened with organic molasses, resulting in a chai that is not too sweet and bursting with flavour.
